

BUILDING DIMENSIONS

OUR RANGE:

Illustrated below is our range of temporary building units. Our buildings range from 5m to 30m units, all of which can be joined together in multiple sizes and lengths to accommodate your temporary building needs.

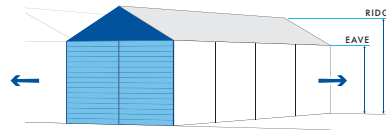

5m Span x 5m Length increments

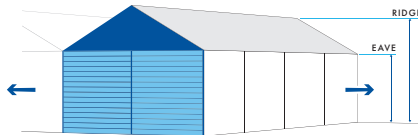

5 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	5.1	6.1	7.1

7.5m Span x 5m Length increments

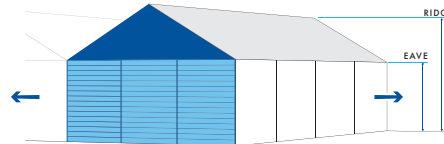

7.5 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	5.4	6.4	7.4

10m Span x 5m Length increments

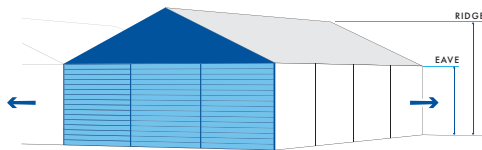

10 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	5.88	6.88	7.88

12m Span x 5m Length increments

12 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	6.14	7.14	8.14

15m Span x 5m Length increments

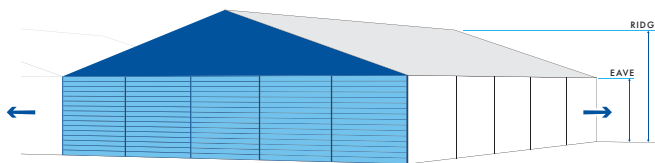

15 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	6.69	7.69	8.69

20m Span x 5m Length increments

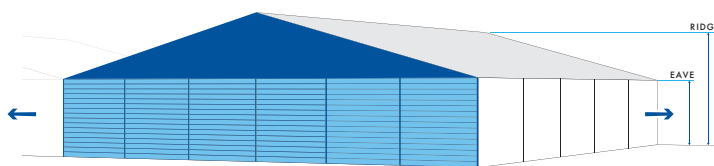

20 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	7.46	8.46	9.46

25m Span x 5m Length increments

25 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	8.31	9.31	10.31

30m Span x 5m Length increments

30 METRE (m) SPAN			
Eave height (m)	4.2	5.2	6.2
Ridge height (m)	9.12	10.12	11.12

Our framework is made from aluminium with galvanised steel connections joints

Frames are manufactured to BS6399 / BSEN1991 for wind & snow loads.
